At Hodgson, we use Edulink One as the main platform for communication between home and school. While our core system is Arbor, Edulink provides parents and students with a simple and convenient way to access key information in one place.

Through Edulink, you and your child will be able to view homework, achievement and behaviour points, attendance records, catering balances, and much more. It is an important tool to help you stay up to date with your child's progress and daily school life.

We encourage all parents and carers to download the Edulink One app or access it via a web browser and to check it regularly. Login details and further guidance will be provided at the start of the school year. A step-by-step "how to" guide is also available here, which will help you get set up and make the most of the platform. We ask that you read through this information carefully with your child.

You will also receive a Parent Handbook on Intake Evening.

Our website www.hodgson.lancs.sch.uk also contains a wealth of useful information and guidance.

Please do not hesitate to contact us at any time if you have any queries or concerns.
